

Your Life Your Faith Your Story

Exploring the spiritual experiences of young Australians

Your Story is ground-breaking Australian research exploring the spiritual experiences, beliefs and influences that are shaping the faith of young people.

This national survey invites young people to reflect upon their story of faith and how they have come to hold the beliefs and practices they hold today.

We are keen to hear from all young people, whether or not they personally identify as Christians. We would love to hear their stories – the deep stories of who they are, what they believe, and how they have come to hold those beliefs.

Details of the project including links to the online survey can be found at <https://yourstory.ridley.edu.au/>

We're collecting data from now until the end of July and would value your help in gathering responses from young people aged 16-20.

The most effective way we've found for gathering completed responses is for leaders to get a group of young people together to work through the survey at the same time.

Details of leading a group, including how to get additional consent for young people under 18 years, is in the Leaders section of the website.

Please contact either of us if you have any questions about the project.
